

Martin McClellan

## Motivation

- Remembers lake being clearer

## Initiation

- Established four underwater Stations at 20-70 feet each Shore of the Lake

## Follow Through

- Leverages casual connection with Gov. Brian Sandoval
- EPA, UC at Davis, TRPA and University of Nevada, Reno

## Impact

- Biota mapping, planting and extraction
- Storm Pipe Outflow Documentation

## Team

- Five divers total

Axel Gunderson

## Motivation

- Wants to make sure his lake stays “super”

## Initiation

- Established 5 Stations at points of interest in lake

## Follow Through

- Teamed with SETL Project, Ghostfishing.org, local schools/businesses, journalist, professional underwater photographer
- Organizes beach and underwater clean up days (+40 volunteers)

## Impact

- Won local business support
- Increased regional public awareness about lake/underwater world
- Bridged gap between sport fisherman and divers
- Records and organizes meticulous biological records

## Team

- Regular dive team: 10 divers
- Expanded project dive team: +20 divers

Edward Smith

## Motivation

- Adds depth to his dive

## Initiation

- Established two Stations off coast of Oslo

## Follow Through

- Collected water samples and basic data from Stations
- Organized underwater trash clean up
- Contacts and receives small cooperate sponsorships

## Impact

- Regional coverage in newspapers
- Listed in “top 10 most viewed” videos 2013 in Norway
- Received donation of 3D modeling software
- Local government contacts

## Team

- +8 divers total
